

2025 ASC REGION 2 ALTERNATE LEADERSHIP COMPETITION PROBLEM STATEMENT

Project Name:
SR52 LOGISTICS CENTER

Problem:

A developer has plans to construct a logistics center to house potential local businesses to keep up with the growing demand for distribution near Tampa, FL. This project will require a seasoned heavy civil and commercial infrastructure contractor to retain a rigid project schedule and budget. Project scope consists of earthwork, underground utilities, concrete flatwork, paving, and stabilization. Contractors will be invited to privately bid this project, with the award going to the contractor that scores the highest among the below criteria:

- Estimate
- Schedule
- Safety
- Site Logistics
- Problem Solving
- Presentation
